

## 2022 Neighborhood Infrastructure Improvements Construction Update #1 – 6/10/2022

### What has happened during the past week?

- The prime contractor, Danner Inc, has mobilized into Area 5 (Riverwood Neighborhood) and began reclaiming existing bituminous pavement and aggregate base
- Along Sherman Way and Riverwood Ct excess reclaimed material was hauled away and stockpiled
- Select curb and gutter segments that were identified to be damaged were removed
- Erosion control measures are being installed before the weekend

### What is scheduled for the week of June 13<sup>th</sup>?

- Excess material from streets that have been reclaimed will continue to be loaded and hauled away
- Select removals of curb and gutter will continue
- Utility improvements will begin including the installation of new storm sewer structures as well as the rehabilitation of valves in the water main system primarily along Riverwood Drive and Village Trail
- **IMPORTANT NOTES:**
  - Beginning this week there will be construction stakes placed in the boulevards at locations of utility improvements. PLEASE DO NOT TOUCH these wooden stakes as they are critical for construction.
  - **Please refrain from parking on streets under construction from 7 AM to 7 PM**

*A reclaim machine being used to grind and mix existing asphalt with gravel base below*

*A milling machine was used after the reclaimer to load out excess material into trucks*
